

Doncaster Talks 2021 – Doncaster Delivery Together Survey Results

During summer 2021 we held a further Doncaster Talks engagement consultation dedicated to Doncaster Delivering Together, which invited residents to answer three short questions on the wellbeing goals and priorities developed based on all of the previous consultation insights outlined above. Residents were asked to what extent they agreed or disagreed with the wellbeing goals and the affiliated priorities. This survey gained good coverage with a total of 1312 responses, being open for three weeks ending 08.08.2021.

Residents were asked three questions:

1. To what extent do you agree or disagree that each of these goals for the future will help to ensure Doncaster will be thriving in ten years' time?
2. To help achieve our goals, we are proposing some 'Priorities - the Great 8'. These are the big actions we commit to deliver over the next ten years. To what extent do you agree or disagree that these are the right priorities to be making to Doncaster residents?
3. Please rank the priorities in terms of their importance. The feedback from the engagement is summarised below.
